MORE TO

VOLUMETRIC DOSING UNIT

DVM

A 3D perspective rendering of the DVM8L volumetric dosing unit. It features a large, grey, conical hopper at the top with two red circular discharge ports on its side. Below the hopper is a central dosing mechanism with a red cylindrical component. The entire unit is mounted on a black, motorized base with a visible drive shaft and gears.

DVM8L

Model	Capacity (kg)	Max. throughput (kg/h)	Max. outlet diameter (mm)	Power (kW)
DVM8L	8	100	100	0.55
DVM16L	16	200	150	0.75

Description

- new
- throughput 40 - 700 gr. / hour
- direct adjustment of the percentage
- stainless steel dosing screw with patented profile
- memory for up to 100 recipes

The Moretto DVM series is the simplest solution for dosing masterbatch or additives. The direct setting of the percentage of the quantity to be dosed simplifies communication with the operator. The motorised dosing screw, controlled by an inverter, guarantees reliability. The dosing screw can be timed out. The inclined and guided dosing screw ensures maximum stability and precision. Stainless steel augers with a patented profile are available in various diameters for perfect dosing.

Product information

Gesamtgewicht:	20 kg
Gesamtgröße L x B x H:	36,8 x 37,3 x 38,7 cm
Schneckendurchmesser:	8 mm
Steigung der Schnecke:	4 mm
Trichterkapazität:	6 L
condition:	neu
elektrische Leistung:	0,09 kW
throughput min.-max.:	40 - 700 gr. / Std.
